## Working practices and legislation

### 4.1 (pt 2) Demonstrate good health and safety practice when working on film productions

How will/did you apply good health and safety practice when making your film?

- Make sure anything unsafe is reported to producers
- Make sure all equipment I use is safe and won't damage anyone

Add your risk assessment and explain why this is important.

- Risks
- Boom stick, could hit someone when maneuvering
  - microphone, could fall out and damage someone
  - cables, trip hazard
